

Supplementary Table 2. *p*-values of wilcoxon signed rank tests applied on the $\delta^{13}\text{C}$ values of the sample tested for the presence of exogenous carbon through various treatment. Comparison between treated and untreated charcoals.

treatment	layer	<i>p</i>-value
HCl	A/B	0.110
	G	0.053
NaOH	A/B	0.074
	G	0.055
