HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

What must be done in Case of Fire in your NMR Room ?

G. LAURENT, J. MAQUET, F. BABONNEAU

*Laboratoire de Chimie de la Matière Condensée de Paris
CNRS-Université Pierre et Marie Curie, Paris, France*

During the fire

- Do not panic
- Alert the fire department
- Firemen will stop the fire

They will also :

- Destroy the door
- Break the windows
- Ventilate the room

The cleaning

Soot is not dust !

- Corrosive (Cl) and greasy
- Solvents will encrust it
- Call a specialized society :

- Stop corrosion in 12h
- Special cleaning products
- Clean the room
- Clean each electronic card separately

In the mean time

Total cost : 35 000 €, 2 months without NMR experiments
