Unfortunately, the original article (Fuchs and Zuccon 2018) contained some errors. The Tables 1, 2 and Additional file 1: Table S2 were displayed incorrectly. The correct tables can be found below.

Table 1 Details of the six specimens of *Orthotomus ruficeps* from southern Vietnam (original label mention is Cochinchina) collected by Louis Rodolphe Germain and representing, to our knowledge, the only specimens deposited in natural history museums

The specimen in Senckenberg was previously cataloged at MNHN with the number MNHN ZO 1882-741; this specimen was not sequenced
